## PROFESSIONAL SUMMARY

Computer Science Engineering graduate with hands-on experience in Python backend development, scalable web applications, REST APIs, SQL databases, AI-powered systems, and data-driven applications. Skilled in Python, SQL, Flask, ReactJS, API development, Machine Learning, and software engineering principles. Experienced in building full-stack and AI-integrated applications with focus on backend architecture, real-time workflows, database optimization, debugging, testing, and scalable system design. Strong analytical thinking, problem-solving, communication, and collaboration skills with passion for fintech, distributed systems, and high-impact engineering solutions.

## EDUCATION

### B.Tech in Computer Science and Engineering with Honours in Machine Learning

Vidya Academy of Science and Technology

APJ Abdul Kalam Technological University

CGPA: 8.58/10 | 2022 – 2026

## SKILLS

Technical Skills:

- Programming Languages: Python, SQL, JavaScript
- Backend Development: Flask, REST APIs, API Development, Backend Engineering, Real-Time Applications
- Databases: PostgreSQL, MySQL, MongoDB, SQL Query Optimization, Database Management
- Data Engineering & Analytics: Data Pipelines, Data Processing, Reporting, Dashboard Development, Data Visualization
- Web Development: ReactJS, HTML5, CSS3, Tailwind CSS, Responsive Web Applications
- Cloud & DevOps: Git, GitHub, Docker, CI/CD, Azure, Agile Development
- AI & Machine Learning: Machine Learning, CNN, NLP, DistilBERT, Computer Vision, AI Workflow Integration
- Software Engineering: Scalable Systems, Debugging, Testing, Frontend-Backend Integration, System Design, Distributed Systems Basics

Soft Skills:

- Interpersonal Skills: Communication Skills, Team Collaboration, Leadership
- Analytical Abilities: Analytical Thinking, Problem Solving, Critical Thinking
- Professional Attributes: Adaptability, Attention to Detail

## WORK EXPERIENCE

### FRONTEND DEVELOPER INTERN | TEAM LEAD

PRIZMORA PRIVATE LIMITED | Kochi, India | June 2025 - July 2025

- Developed scalable web applications using ReactJS, JavaScript, HTML5, CSS3, and REST APIs to improve application responsiveness and user experience.
- Integrated frontend systems with backend APIs and database-driven workflows for seamless real-time data exchange.
- Collaborated in Agile development environments using GitHub version control, debugging practices, and performance optimization techniques.
- Coordinated development tasks as Team Lead, improving collaboration, sprint execution, and timely project delivery.
- Contributed to testing, troubleshooting, and software quality improvement in fast-paced engineering workflows.
- Participated in requirement analysis, feature implementation, and cross-functional collaboration to deliver scalable and user-focused software solutions within project deadlines.

## PROJECTS

### **CYBERSHIELDED: AI-POWERED DETECTION AND PREVENTION OF CYBERBULLYING IN TEXT AND VISUAL MEDIA**

- Built an AI-powered moderation platform using Python, Flask, DistilBERT, NLP, and Computer Vision for real-time harmful content detection.
- Developed REST APIs, backend services, and automated alert systems to support scalable content moderation workflows.
- Designed monitoring dashboards and reporting systems for incident tracking, analytics, and real-time visualization.
- Implemented database integration, WebSockets, and scalable backend architecture for real-time processing and user management.
- Applied debugging, testing, Agile methodologies, and performance optimization practices throughout development lifecycle.

### **ENHANCED MANUFACTURING QUALITY CONTROL OF CASHEWS WITH AI-POWERED COMPUTER VISION**

- Developed a computer vision-based quality prediction platform using Python, Flask, CNN models, and Machine Learning techniques.
- Built scalable REST API integrations and responsive ReactJS interfaces for real-time image classification workflows.
- Improved operational efficiency through automated image analysis and intelligent quality assessment systems.
- Implemented database integration, testing, debugging, and performance optimization for reliable application deployment.
- Utilized GitHub version control, Agile methodologies, and cloud-ready software engineering practices.

### **XPENSO : EXPENSE TRACKER WEB APPLICATION**

- Developed a full-stack expense management platform using Python, Flask, SQL, ReactJS, and REST APIs.
- Designed data dashboards, analytics modules, and reporting workflows for real-time expense tracking and visualization.
- Implemented secure authentication, backend integration, and scalable database management systems.
- Optimized application performance through testing, debugging, SQL querying, and efficient software engineering practices.
- Applied CI/CD workflows, Agile methodologies, and collaborative development practices to improve scalability and maintainability.

## CERTIFICATIONS

- NPTEL ONLINE CERTIFICATION - ESSENTIAL MATHEMATICS FOR MACHINE LEARNING
- INFOSYS SPRINGBOARD - PYTHON FOUNDATION CERTIFICATION
- HACKERRANK SQL (BASIC) CERTIFICATE

## LANGUAGES

- ENGLISH - FLUENT
- HINDI - FLUENT
- MALAYALAM - NATIVE

## DECLARATION

I hereby declare that all the information stated above is accurate to the best of my knowledge.
